TECHNICAL NOTES

Republic Act No. 11055, or the Philippine Identification System Act, signed into law by President Rodrigo Roa Duterte on August 6, 2018, aims to establish a single national identification system for all citizens and resident aliens of the Republic of the Philippines. The valid proof of identity provided by the PhilSys shall be a means of simplifying public and private transactions and shall be a social and economic platform that promotes seamless social service delivery and strengthens financial inclusion for both public and private services. As a foundational digital ID system, the PhilSys will transform how services are delivered in the Philippines, and accelerate our transition into a digital economy, including to enable presenceless, paperless, and cashless transactions.

For more information and latest updates about PhilSys, please visit the official PhilSys website at www.psa.gov.ph/philsys or follow the official PhilSys Facebook page – PSA Philippine Identification System. For inquiries, you may reach the PhilSys Registry Office through hotline number 1388 or e-mail at info@philsys.gov.ph.

Definition of Terms

PhilSys Registration Team is a team composed of Registration Team Supervisor, Registration Kit Operator/s, and a Screener which goal is to register Filipino citizens and resident aliens to the Philippine Identification System (PhilSys).

Step 2 Registration means the appearance of a registrant at the PhilSys Registration Center to verify his/her demographic details and capturing of his/her fingerprints, irises, and of front-face to be used in his/her PhilID.

Registrants are individual clients that are to be registered in the Philippine Identification System.

Registered Person refers to the person who has been registered to PhilSys.
