

# PRESS RELEASE

## PSA Pampanga conducts the Third Quarter 2024 Commodity Flow Survey (CFS) - Data Processing

**Date of Release: 04 February 2025**  
**Reference No. 2502-0354-PR-006**

*After the collection, Machine processing involves verifying the data entry, data validation, generation, and verification of summary file report and tabulation of the collected data to ensure its reliability for analysis and reporting.*

The Commodity Flow Survey (CFS) is a new survey undertaken by the Philippine Statistics Authority (PSA) that aims to gather quarterly information on the movement of commodities from one province to another via road mode of transport.

The Commodity Flow Survey (CFS) in Data Processing is a key initiative in analyzing the movement and processing of goods across regions. It provides crucial insights into transportation logistics, supply chain efficiency, and economic trends, aiding policymakers and businesses in decision-making.

Conducted periodically, the survey collects data on freight shipments, including commodity types, transport modes, and shipment values. These insights support infrastructure planning, investment strategies, and supply chain optimization through advanced data analytics.
