

PRESS RELEASE

Bulacan Takes Part in PSA's Nationwide Labor Force Survey for February 2025

Date of Release: 17 February 2025

Reference No. 2025-PR-0314-03

Statistical Researcher of PSA Bulacan during Supervision of Labor Force Survey and Re-interview

The Philippine Statistics Authority (PSA) – Bulacan is currently conducting the February 2025 Labor Force Survey (LFS) from February 8 to 28, 2025. This nationwide survey aims to gather data on the current employment situation in the country, providing valuable insights into labor market trends and economic conditions.

For this month's survey, two (2) Statistical Researchers (SR) have been assigned to six municipalities in Bulacan, covering a total of 102 sample households. The municipalities included are the City of San Jose Del Monte, San Miguel, Bocaue, Plaridel, City of Malolos, and Santa Maria. These areas were selected to ensure a representative sample across the province.

The PSA encourages all selected households across the country to cooperate with the authorized statistical researchers, who will be conducting interviews and collecting important data. The information gathered will be used to support program development and monitor labor market conditions in the province.

The agency guarantees that all collected data will be kept confidential and used only for statistical purposes. For further inquiries, please contact us at (044) 794-0131 or via email at bulacan@psa.gov.ph.
