

MAP AND DATA PROCESSING ACTIVITIES AND GEOTAGGING OF SERVICE FACILITIES AND GOVERNMENT PROJECTS (SFGP)

The Provincial Statistical Office of Nueva Ecija is currently conducting the 2024 Census of Population and Community-Based Monitoring System (POPCEN-CBMS) Map and Data Processing activities at the Data Processing Center (DPC), previously located at Belle's, Lumang Bahay, Brgy. Valdefuente, Cabanatuan City, Nueva Ecija, now located at PSO Nueva Ecija Training Room.

As of 30 April 2025, the DPC—led by CBMS Focal Person Senior Statistical Specialist Rommel Payawal and Alternate Focal Statistical Specialist II Aphrodite Ortiz, along with the Information System Analyst and two shift supervisors—has accomplished significant progress in its operations. A total of 2,738 Form 1s have been encoded out of 2,888 enumeration areas (94.80%), 2,888 maps have been processed (100.00%) but is yet to be uploaded, 2,888 data entries validated (100.00%), and 2,888 datasets uploaded (100.00%). Processing of duplicates has also been completed. In addition, the team has completed the encoding of 11,683 forms gathered during the saturation phase. However, the processing of inconsistencies forwarded by the Central Office is still ongoing. To maximize resources and improve output, the DPC continues to operate on a two-shift rotational schedule. However, during the last two weeks of operations (April 16–30), the number of personnel was reduced to 55 (comprising 53 map and data processors and 2 shift supervisors) due to a limited and reduced workload. Despite this, the team retained the two-shift schedule since the slow processing system could not

accommodate all personnel in a single shift.

To continue tasks not completed between April 16 and 30, the team has set up a temporary DPC at the PSA Training Room. These remaining activities include encoding of Form 1s, uploading of data from deduplication, resolution of inconsistencies and accomplishment of the certification pass. However, it became apparent that these tasks could not be completed immediately. In response, the CBMS Focal requested a 5-day extension (May 9–15) in which 30 data processors were rehired to ensure completion. To optimize processing, the CBMS team selected the best-performing personnel for this final stretch.

Meanwhile, hired personnel for the Geotagging of Service Facilities and Government Projects (SFGP) began operations on March 10. As of 30 April, Nueva Ecija has successfully geotagged all 849 barangays (100.00%), and processed all 849 barangays (100.00%).

This progress has been made under the consistent supervision and monitoring of Senior Statistical Specialist Payawal, Statistical Specialist II Ortiz, and Mapping Focal Person Hilario Delos Santos, under the guidance of OIC Girlie G. De Guzman, to ensure operational efficiency and real-time issue resolution.

PSA HOUR AT DWNE TELERADYO INTERVIEW

Technology (ICT), which involves surveying 682 establishments with 382 samples.

Other ongoing surveys include the Labor Force Survey, Livestock and Poultry Survey, and the Crops Production Survey. Furthermore, the Provincial Product Accounts project is also underway, with data collection and processing happening in collaboration with local government units (LGUs) and other agencies. There was a specific call for data provision, as the Information Dissemination Forum for this year has been moved to an earlier date, now set for October. Over 50% of the data collection for the Provincial Product Accounts has already been completed.

On April 2, 2025, the Philippine Statistics Authority (PSA) Nueva Ecija attended in a radio guesting and interview for PSA Hour in DWNE Teleradyo at Palayan City, Nueva Ecija. Representing PSA Nueva Ecija were Statistical Specialist II Aphrodite A. Ortiz for Statistical Unit matters, Registration Officer II Mark Joseph U. Briguela for National ID matters, and Statistical Analyst Gemalyn Fernandez for Civil Registration Services.

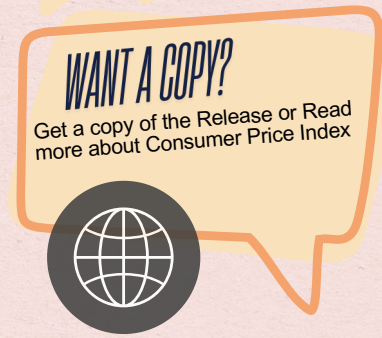

SS II Aphrodite A. Ortiz discussed the ongoing and upcoming projects of PSA Nueva Ecija under the Statistical Unit. Among the key projects highlighted was the 2024 Census of Population and Community-based Monitoring System (POPCEN CBMS), which is currently in the map and data processing stage with 96% completion. This project also conducts the Geotagging of Service Facilities and Government Projects, which is being carried out across 32 municipalities and 849 barangays. Additionally, PSA Nueva Ecija is conducting several important surveys as part of its regular activities, including the Palay and Corn Production Survey, Rice and Corn Stock Survey, and the Annual Survey on Philippine Business Industry (ASPBI). ASPBI includes a rider on Information and Communication

In addition to the project updates, PSA Nueva Ecija shared announcements regarding upcoming promotions. For more information, stakeholders and clients are encouraged to visit the PSA Nueva Ecija Facebook page or the official website of PSA Central Luzon at www.rss003.psa.gov.ph/nuevaecija49, where they can find important announcements and job vacancies.

SS II Ortiz also made an appeal to clients and stakeholders to continue supporting the ongoing and future projects of PSA Nueva Ecija, highlighting the importance of their participation in ensuring the success of the mentioned projects.

PSA Nueva Ecija will continue to engage in information dissemination activities, such as radio guestings and interviews at DWNE Teleradyo, to promote its projects and keep the general public informed.

CHECK AND AUDIT OVER THE LOCAL CIVIL REGISTRY OFFICES

The PSA Nueva Ecija conducted the random check and audit over the Local Civil Registry Offices in the province of Nueva Ecija. For the month of April, 17 out of 32 LCROs have been visited by the PSA Audit Team led by Supervising Statistical Specialist and Officer-in-Charge Girlie G. De Guzman pursuant to the Office Memorandum 2024-264. The activity aims to verify the proper maintenance and safeguarding of civil registry

documents, assess adherence to existing laws, policies and procedures, and identify areas for improvement in LCRO Operations.

A courtesy visit was done to the Office of the Mayor before each LCR Audit.

Audit Schedule	
April 2025	LCRO
3	Cabiao, San Isidro, San Antonio and Jaen
4	San Leonardo, General Tinio and Peñaranda
7	Gapan City and Santa Rosa
10	Quezon and Santo Domingo
11	Science City of Muñoz
14	Licab and Talugtug
21	Cuyapo
28	Guimba
29	San Jose City

These activities are essential to ensure compliance with civil registration laws and to maintain the integrity and accuracy of civil registry documents.

PSA - NE AT GINTONG BUTIL KASALANG BAYAN - CARRANGLAN

On April 22, 2025, a meaningful Kasalang Bayan (Mass Wedding) ceremony was held in the municipality of Carranglan, Nueva Ecija, where 58 couples were officially united in matrimony.

Statistical Specialist II Editha U. Briguela served as the Guest Speaker during the event. Together with Ms. Shara Mae E. Bergado, represented the Philippine Statistics Authority (PSA) and Officer-in-Charge Girlie G. De Guzman. The message emphasized the importance of civil registration, particularly marriage registration, as a crucial step in ensuring the legal recognition and protection of families.

Present during the ceremony were Honorable Mayor Rogelio B. Abad who led the Kasalang Bayan ceremony, Vice Mayor Ricardo C. Manucdoc, members of the Sangguniang Bayan, ABC President Renato A. Venturina and LGU staff. The event was made possible through the generosity and initiative of Mayor Abad, who ensured that all wedding expenses were provided free of charge for the couples.

The activity was also led by Municipal Civil Registrar (MCR) Cirila A. Manzano, whose efforts greatly contributed to the success of the event.

The PSA supports activities like this as part of its ongoing commitment to promote Civil Registration and Vital Statistics (CRVS), and to raise awareness on the importance of registering life events in a timely and accurate manner.

Photo documentation of newlywed couples have been properly recorded for official reference.
