Monthly Inflation Report Keeps Bulacan Informed Month

Live coverage of the Inflation report, conducted at PSO Bulacan.

The Philippine Statistics Authority (PSA) Bulacan presented the province's April 2025 inflation report during its monthly press conference held online on 15 May 2025. The conference was held online via Google Meet and streamed live on social media.

Bulacan's inflation rate rose to 2.2% in April, slightly up from 2.0% in March. The increase was driven by higher prices in Housing, Water, Electricity, Gas and Other Fuels; Health; Alcoholic Beverages and Tobacco; and Recreation, Sport and Culture. Meanwhile, Food and Non-Alcoholic Beverages; Personal Care Miscellaneous Goods and Services; and Transport costs saw a slowdown.

The conference was attended by local officials and stakeholders to help inform decision-making and raise public awareness on price movements and their effects on household spending.
